

# **TOOLS & STRATEGIES FOR CONSERVATION AND DEVELOPMENT IN THE AMAZON:**

## *Lessons Learned and Future Pathways*

### **BEFORE THE WORKSHOP**

- Preparation of written summaries of experiences with tools and strategies
- Virtual meetings among groups to share experiences and distill lessons learned
- Preparation of group presentations and individual posters

### **DURING THE WORKSHOP**

- Critical evaluation of lessons learned from achievements and challenges
- Harvest of insights and reflections
- Chart promising ways forward to work collaboratively

### **AFTER THE WORKSHOP**

Collaboratively written synthesis document that:

- Incorporates products from before and during the workshop
- Analyzes lessons learned from a wide range of experiences and contexts
- Proposes steps forward to effectively respond to drivers of deforestation and environmental degradation
