'Rolling Stones: Dispersers in Dynamic Human Dominated Landscapes'

**By Dr. Divya Vasudev
WCS India & TCD / UF alumna**

August 29, 2017
12:45 -1:45pm
Grinter Hall, Room 376

Bio

Senior Scientist at the Wildlife Conservation Society India Program. I got my doctorate from the University of Florida. My interests are in connectivity and landscape scale conservation of species.

Tropilunch is a weekly seminar run by graduate students from the Tropical Conservation and Development (TCD) Program. It provides a forum for a range of discussions and presentations related to TCD work and research. Students are provided with an opportunity to present and discuss their research projects with peers and faculty. In addition, discussion sessions on issues of current interest are also held. Visiting scholars and conservation practitioners also participate when available. It is held every Tuesday at 12:45 p.m. in Grinter 376. Tropilunch presentations are recorded weekly and can be found on TCD's [YouTube Channel](#).
