KAR ATAMAIN
FEDERACIÓN INTERPROVINCIAL
DE CENTROS SHUAR

KATA BEILIN
DEPARTAMENTO DE ESPAÑOL Y PORTUGUÉS
UNIVERSIDAD DE WISCONSIN, MADISON

Biocultural Conservation is premised on collaborative exchange of knowledge among plural worldviews and perspectives. The Universidad Intercultural Maya de Quintana Roo (UIMQRoo), Mexico has been a leader in Intercultural Education that combines Indigenous language, culture, ways of thinking and cosmovision with the western scientific method.

This webinar will present both the conceptual underpinning and practical experience of UIMQRoo in carrying out Intercultural Education. Discussants from the GIA network will comment on the applicability of this approach to ongoing efforts to promote Intercultural Education in Amazon countries.

THURSDAY, MARCH 30, 2023
14:00 COLOMBIA, ECUADOR, QUINTANA ROO,
15:00 FLORIDA, BOLIVIA, MANAUS | 16:00 BRASILIA
