

CONSERVATION AND DEVELOPMENT FORUM

What kind of curriculum is needed to advance Biocultural Conservation in Higher Education?

THURSDAY, MARCH 28, 2024
3:00-5:00 PM EST (HYBRID PANEL)

UF Biodiversity Institute Auditorium
432 Newell Drive, CISE Bldg E251

Dr. David Zandvliet,
UNESCO Chair, Bio-cultural Diversity and Education,
Professor, Faculty of Education, Simon Fraser University

Based in Vancouver, Canada David Zandvliet is the founding Director for the Institute for Environmental Learning and an Associate member in the Faculty of Science at SFU. An experienced researcher, he has published articles in international journals and presented papers on six continents and in over 16 countries. His career interests lie in the areas of science and environmental education with a special focus on the study of learning environments. He has considerable experience in the provision of teacher development and has conducted studies in school-based locations in Australia, Canada, Malaysia Sri Lanka and Taiwan. David leads environmental education programming at SFU including directing field schools in diverse locations including Vancouver, Haida Gwaii, Hawaii, and Indonesia.
